BEAUTIFUL CHURCH

WEDDING.

Miss Nancy Embury Walker And Mr.
William Blythe Burton Married
At Presbyterian Church.

The wedding of Miss Nancy Walker
and Mr. William Burton, which took
place last Saturday evening at 8 o'clock
at the Presbyterian church was one of
the prettiest weddings ever witnessed
in Lancaster.

Rev. H. S. Hudson was the officiating
clergyman, pronouncing a beautiful
ceremony and the wedding music was
furnished by Miss Gladys Shaller, pian-
ist, Miss Hazel Denserv, violinist and
Miss Sara C. Porter, soloist, all of K.
C. W., Danville.

The following program of music was
delightfully rendered by these artists,
before the wedding party entered the
church:

Violin—Romance from 2nd Concerto
..... Winiarski.
Schion Rosemarin Kreiser.
Voice—A Birthday Woodman.
Eccstasy Beach.
The Minstrel with violin obligato.... Hilbach.

The bridal party entered with strains
from Lobengrin.

The wedding procession was led by
Miss Martha Kavanaugh and Mr. John
Gill Kinnaird who approached the altar
by opposite aisles, they were followed
by Miss Anna Mae Walker and Mr.
Horace Walker, Miss Edna Kavanaugh
and Mr. Clay Kauffman, then came the
maid of honor, the beautiful young
niece of the bride, Miss Minnie Mae
Robinson. The lovely bride came in
alone preceded by the dainty little
flower girl, Lucy Bates Denny, who
from a French basket filled with "brides
roses" scattered petals along the path-
way of the bride. The bridegroom,
with his best man, Dr. R. L. Pontius, ad-
vanced thru a rear door and met the
bride at the altar where they stood for
the marriage service. During the cere-
mony "Meditation" from Thais was
the soft low music and Mendelssohn
Wedding March was played as the
brideal party left the church.

This was a green and white wedding,
the brides maids wearing white organdy
with green ribbons, they also wore
short tulle veils. The maid of honor
wore a girlish green gown, ruffled to
the waist, all carried large bouquets of
white chrysanthemums. The brides
gown was a model of soft ivory satin,
trimmed in Duchesse and rose point
heriotism lace, the court train was held
at the shoulders by orange blossoms
and the long tulle veil was adjusted by
a bandeau of orange blossoms, she car-
ried a shower bouquet of bride's roses
and lilies of the valley.

Never has there been seen more
artistic church decorations in Lancaster,
which was a most fitting setting for
the charming young women and hand-
some young men who composed the
bridal party.

Directly in the middle ground stood
an arch ten feet high and on either side
of this, one just lower. These three
arches were wound with Southern amil-
ax. Extending entirely across
these arches, five feet from the floor,
was a solid dado of amilax, at the top
of this dado was a border of lily stalks.
These lovely white lilies with their
foliage carrying out the color scheme
of green and white. Hanging from the
center arch was a huge French basket
tied so as to shower its contents of
white flowers upon the bride and groom.
One side arch had suspended a large
white butterfly, the emblem of the im-
mortality of the soul and the other a
bunch of lilies. Filling in from these
arches to the side wall were potted
plants, ferns and palms. At the end
of each aisle leading to the altar were
white marble pedestals holding large
French baskets containing white chry-
santhemums and ferns, the handles be-
ing tied with bows of green tulle.

The reserved seats were marked by
green standards which held a large
white chrysanthemum and amilax tied
with a bow of white tulle which gave a
feathery lightness to this charming
picture.

They left at once for Ashville N. C.,

and other southern points.

The bride's going away gown was
brown broad-cloth, trimmed in mink
with which she wore handsome mink
furs. This popular couple received
many elegant presents and they begin
life together with brightest prospects.

CENTRAL RECORD

The Ear-Marks of a Good Feed Grinder

You will find every one of them on all
INTERNATIONAL FEED GRINDERS

A strong steel stand prevents wobbling.
Two lag screws hold the machine firmly in position.
The grinding plates are self-aligning and therefore grind evenly.
A spring tension on the grinding plates insures even grinding.
A plate shifter lever at the end of the shaft is a safeguard
against breakage and makes it a simple matter to clean
the plates.

An International feed grinder and an IHC oil engine
make an ideal combination. The engine will furnish con-
venient power for operating the feed grinder, and is especially
adaptable for this purpose on account of the variation of the
power required in proportion to the kind of grain being ground.

International feed grinders are made in the following
types and sizes to meet all requirements:

Type B: 6, 8, and 10-inch—grinds corn on the cob
Type C: 6 and 8-inch—grinds small grains and shelled corn
Type D: 8 and 10-inch—grinds corn in the husk, alfalfa and
Kaffir corn in the head

There are other features which you can see for yourself if
you will drop in for a demonstration the next time you are
in town.
